

Wall-mounted gas condensing boiler

Affordable excellence: raise your comfort level with our new, outstanding wall-mounted gas condensing boiler

**VITODENS classic** (type BPKB).

**Heating with gas**

- + Efficient and durable
- + High heating and hot water convenience
- + Saving space

Compact and efficient wall-mounted gas condensing boilers with a very attractive price/performance ratio.

Vitodens classic with attractive design Vitopearlwhite in colour

As a large-scale manufacturer with many years of experience in wall hung boilers, we know what's important. Viessmann can be relied on for quality, and the Vitodens classic at a very attractive price is no exception.

Viessmann wall hung boilers are known not only for their innovative technology and performance, but also for their reliability and durability. Thanks to its modern units, this wall-mounted gas condensing boiler is very compact and can be installed even in small recesses. There are no lateral maintenance distances as all connections are easily accessible from the front.

Vitodens classic is ideal for retrofit projects in apartments or single-family homes. It is available as a combi boiler (with integrated instantaneous water heater) with outputs from 5 to 25 kW.

#### **Stainless steel Inox-Radial heat exchanger: efficient and robust**

Stainless steel makes all the difference. The corrosion-resistant Inox- Radial stainless steel heat exchanger is crucial for Vitodens classic. It efficiently converts the input energy into heat. In addition, the extremely robust, high-quality stainless steel ensures reliability.

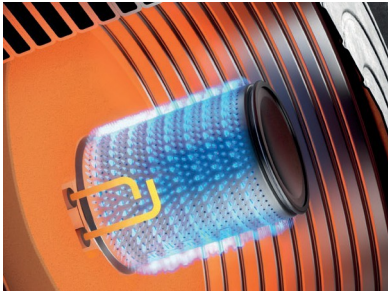

#### **10-year warranty**

stainless steel heat exchangers for 150 kW oil/gas condensing boilers

**MatriX-Plus burner:  
the heart of your heating system**

The advantages of the MatriX-Plus burner include efficient operation, quiet operation and low emissions. The special stainless steel MatriX surface is resistant to high temperatures, ensuring reliable operation and a long service life.

MatriX-Plus burner

**Easy to use with the optional remote control**

The heating water and hot water temperatures can be set quickly using the user-friendly buttons. Operating states and temperatures are shown on the digital display screen.

LCD screen with white backlight and 4 buttons

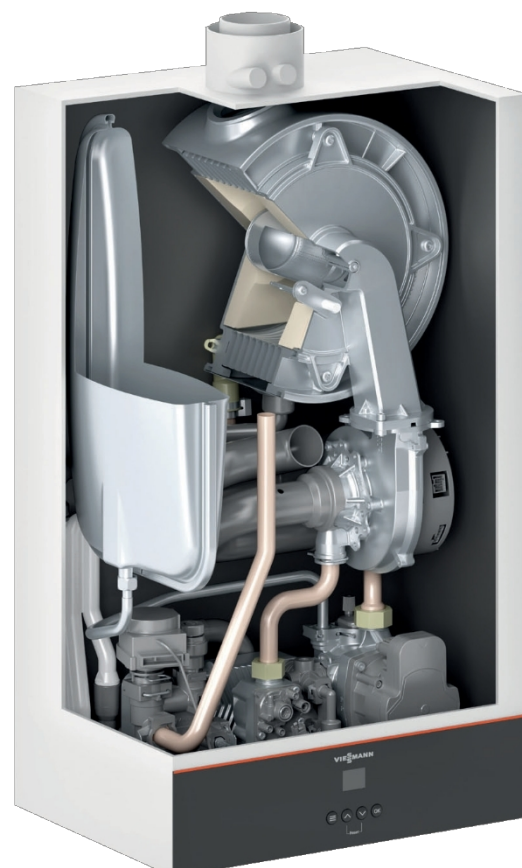

**Vittodensavitodensavitodensavitodensavitodens a classic**

- + Very attractive price/performance ratio
- + Durable and efficient thanks to Inox-Radial stainless steel for the heat exchanger.
- + MatriX-Plus burner for consistently high efficiency and clean for combustion
- + Simple operation via a control unit with white backlit LCD screen and 4 buttons.
- + Ideal for installation living rooms thanks to low operating noise and compact dimensions
- + Low installation height to facilitate replacement of old boilers

**VITODENS classic**

(type BPKB)

-  MatriX-Plus burner
-  Inox-Radial heat exchanger
-  Basic controls
-  High efficiency pump
-  Expansion tank (8 litres)

## Wall-mounted gas condensing boiler **VITODENS classic**

<b>Device type</b>		Combined boiler (type BPKB)
<b>Rated heating capacity range</b>		
50/30 °C	kW	
80/60 °C	kW	5.0 - 25.0
		4.5 - 22.7
<b>Dimensions</b>		
Length	mm	300
Width	mm	400
Height	mm	700
<b>Weight</b>	kg	34
<b>Flue gas connection</b>	Ø mm	60
<b>Ventilation air connection</b>	Ø mm	100
<b>Combined boiler hot water capacity</b>	kW	29.1
<b>Uncoupling rate</b>	l/min	12
<b>Energy efficiency class</b>	<b>h</b>	

Vitodens classic  
(type BPKB)

### Product features

- + Gas condensing combi boiler
- + Nominal heating capacity from 5 to 25 kW
- + Standard seasonal efficiency [according to DIN]: up to 98 % (H<sub>g</sub>)[gross cv]
- + Modulation range up to 1:5 (5 to 25 kW)
- + Energy-saving, high-efficiency circulator
- + Energy efficiency class: A

### Special advantages of the Vitodens classic combi boiler (type BPKB):

- + High level comfort in the hot water supply thanks to the standby function.
